Notes about Chicka Chicka Boom Boom Handwriting Book

This set of handwriting pages can be used in several different ways:

You can use the pages during class lessons on handwriting, print the handwriting on one side of the paper and the beginning sounds on the back side.

You can also copy the pages and bind them as a book. To do this have the children color the front cover (pg 2) and write their name on it. I like to mount this on construction paper and then laminate it with a back cover. Make the pages double sided when copying. For example page 3 will be on the front and page 4 on the back of the same sheet. . . Then copy page 5 on the front and 6 on the back. When you assemble the book the open pages will have the handwriting on one left side and the beginning sound on the right side for the same letter.

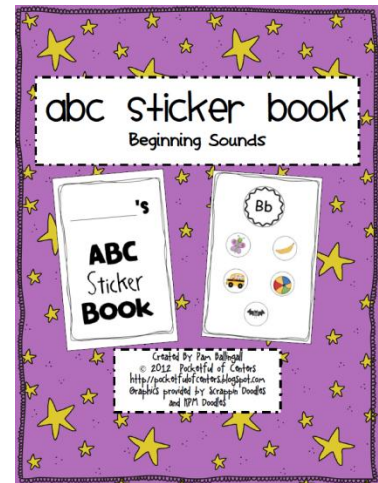

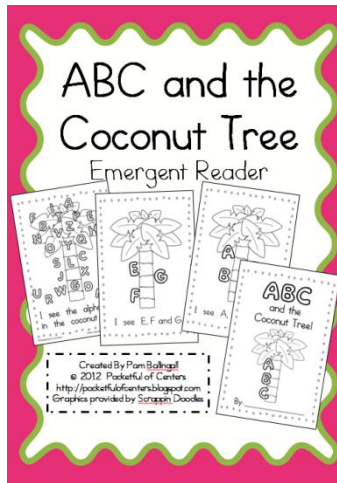

I hope you enjoy using this activity in your classroom!
